OBJECTIVE

Analytical and detail-oriented AIML graduate with strong proficiency in Python, SQL, data analysis and machine learning. Experienced in transforming complex data into actionable insights through EDA, feature engineering and data visualization to support data-driven decision-making in innovative organizations.

EDUCATION

B.Tech in Computer Science(AIML), Trinity College of Engineering, Karimnagar.
CGPA: 8.4/10

Expected May 2026
TG, INDIA

Intermediate (MPC), Sai Chaithanya Junior College, Siddipet.
Percentage: 95%

2020 - 2022
TG, INDIA

SKILLS

Programming Languages	Python, SQL, C, JavaScript
Libraries/Tools	Pandas, NumPy, Matplotlib, Scikit-learn, Power BI, Tableau
Databases	MySQL
Platforms	Google Colab, Anaconda, Git, GitHub, VS Code
Core Competencies	Data Structures and Algorithms (DSA), EDA, DBMS, Operating Systems, OOP, Computer Networks, Machine Learning, Predictive Modeling, Model Evaluation

EXPERIENCE

CODTECH IT SOLUTIONS | Artificial Intelligence Intern | Remote

May 2025 - June 2025

- Assisted in developing AI-driven solutions using Machine Learning, Deep Learning, and NLP techniques.
- Implemented real-time applications for text, speech, and image data using Python and popular ML libraries.
- Gained practical experience working with generative AI, transformer-based models to solve real-world problems.

PROJECTS

CUSTOMER CHURN PREDICTION | MACHINE LEARNING

- Built a Random Forest classification model achieving 89% accuracy on 5,000+ customer records.
- Performed EDA and feature engineering, reducing model bias by 15%.
- Created analytical reports and dashboards to identify high-risk churn customers. ([Project Link](#))

EV CHARGING DEMAND PREDICTION | DEEP LEARNING

- Developed LSTM-based time-series models to forecast EV charging demand.
- Analyzed adoption trends to support infrastructure and planning decisions. ([Project Link](#))

CERTIFICATIONS

- IBM Artificial Intelligence Fundamentals – IBM SkillsBuild**
- Artificial Intelligence – Skill Intern**
- Advanced Course on Emerging Technologies – Code Unnati Program by SAP, Edunet Foundation**
- Trained in ML, IOT, Deep Learning, Computer Vision, SAP ABAP on BTP.
- Code Unnati Innovation Marathon 2024-25 – Edunet Foundation**
- Participated in National-level Innovation Marathon and Submitted a Project Under the Code Unnati Program.
- Certified in ‘Career Essentials in Generative AI’ – **Microsoft and LinkedIn** ([View](#))

EXTRA-CURRICULAR ACTIVITIES

- Deloitte Australia Data Analytics Job Simulation on Forage - May 2025
- Tata Data Visualisation: Empowering Business with Effective Insights Job Simulation on Forage - April 2025
